The nutrition information seen here was prepared by MenuTrinfo®, LLC and is based on standard serving sizes and product formulations prepared with approved ingredients. The nutritional data presented are based on representative values from the USDA Nutrient Database for Standard Reference and information from product manufacturers. Variation may occur due to the handcrafted nature of our menu items or due to seasonal influences and/or sources of supply of our ingredients. Additionally, formulation may change on occasion or the substitution of ingredients or suppliers may be necessary which will alter the nutritional values.

2,000 calories a day is used for general nutrition advice, but calorie needs vary.

\*Lee's Famous Recipe Chicken uses two types of frying oil which impacts the trans-fat values in our products. Please contact your local Lee's restaurant to determine which type of oil is being used.
